1. Registration and entry to the SUP WC shall be possible online from 15 March 2022 to 30 May 2022 (CET) at 18:00 at <https://entry.loopasup2022.com> by providing the registration information, the competition events and services chosen, and paying the participation fee. Registration and entry into the competition shall be individual. Each competitor is individually responsible for his/her own participation and the administrative activities related to his/her entry. A new registration can be made or the parameters of an existing registration can be changed online during the specified period, with the following exceptions. Registration, entry and reservations can be finalized by performing payment. After payment, the system considers the specified parameters to be final and closed, even if the payment is made before the registration deadline. After payment, parameters entered online cannot be changed! After the registration period, registrations not finalized with payment will not be processed and will be placed in invalid status.
2. The Organizer operates an active chip based timekeeping system except in inflatable events. At the accreditation desk each competitor will receive their own individual starting number and chip, which will serve their identification during the race. The Organizer charge a deposit for the chip, which can be paid online at the entry system or in cash onsite at the accreditation. The deposit cannot be paid onsite by credit card. The use of the chip is mandatory, without it the entry is invalid. If the chip is lost, the Organizer will replace it for another deposit. The deposit is 100% refundable. The deposit will be released on the competitor's account after the competition or refunded in cash onsite.
3. Method for the payment, confirmation and billing of the participation fees, lunches, parking fees, deposit and requested T-shirts: Based on the parameters specified online, the system summarizes the participation fee to be paid. The participation fee can be paid online by bank card or using the Barion wallet. Online bank card payments are made through the Barion system. Bank card details will not be sent to the Organizer. Barion Payment Zrt., providing the above mentioned payment services, is an institution under the supervision of the National Bank of Hungary, with license number: H-EN-I-1064/2013. Paying by bank transfer or cash is not possible.
Due to the deposit policy a reservation payment is applied. This scenario means that upon charging the total entry fee, the money is not immediately handed over to the Organizer. Instead, it becomes reserved (or blocked) until the end of the event. During the reservation period, the Organizer has the right to decide whether to finalize, partially finalize the purchase, which comes in handy because of the deposit.

Upon successful reservation process, the registration will be recorded. Upon successful registration, an automatic confirmation e-mail will be sent to the e-mail address provided by the competitor.

Banks account for unlocking the amount in different ways. For this reason, it may take a few days for the balance to reappear after the blocked amount is released. The system will send the invoice for the amount paid to the e-mail address provided by the competitor after the SUP WC.

The registration entered into the system with the payment and the requested services cannot be cancelled, and there is no possibility to refund the participation fee.
